

1 Applications/Emulators

Package	Description
VMwareWorkstation 4.5.2	VMware Workstation

2 Intel tools

■ [File /l_cc_p_8.1.021.tar.gz](#)

Package	Description
intel-eidb8 8.1	Linux Application Debugger for Itanium(R)-based applications, Version 8.1
intel-icc8 8.1	Intel(R) C++ Compiler for 32-bit applications, Version 8.1
intel-icc8 8.1	Intel(R) C++ Itanium(R) Compiler for Itanium(R)-based applications Version 8.1
intel-icc_ide8 8.1	Intel(R) C++ Compiler features and plugins for integration into Eclipse* CDT development environment, Version 8.1
intel-iidb8 8.1	Linux Application Debugger for 32-bit applications, Version 8.1
intel-isubh8 8.1	Substitute Headers for Intel(R) C++ Compiler for 32-bit applications, Version 8.1
intel-isubh8 8.1	Substitute Headers for Intel(R) C++ Itanium(R) Compiler for Itanium(R)-based applications Version 8.1

■ [File /l_fc_p_8.1.018.tar.gz](#)

Package	Description
intel-eidb8 8.1	Linux Application Debugger for Itanium(R)-based applications, Version 8.1
intel-ifort8 8.1	Intel(R) Fortran Compiler for 32-bit applications, Version 8.1
intel-ifort8 8.1	Intel(R) Fortran Itanium(R) Compiler for Itanium(R)-based applications Version 8.1
intel-iidb8 8.1	Linux Application Debugger for 32-bit applications, Version 8.1

DEVELOPMENT TOOLS

3 Development/C

Package	Description
gcc2.96 2.96	Various compilers (C, C++, Objective-C, ...)
gcc 3.3.2	GNU Compiler Collection
gcc-cpp 3.3.2	The C Preprocessor
indent 2.2.9	A GNU program for formatting C code.

4 Development/C++

Package	Description
gcc2.96-c++ 2.96	C++ support for gcc
gcc-c++ 3.3.2	C++ support for gcc
kdevelop 3.0.0	Integrated Development Environment for C++/C

5 Development/GNOME and GTK+

Package	Description
pyorbit 2.0.0	Python bindings for ORBit2

6 Development/KDE and Qt

Package	Description
libqt3-devel 3.2.3	Qt3 -Documentation and files needed to build Qt3 based applications
libqtc1 3.2	Qt bindings for C
libqtsharp0 3.2	Qt bindings for C#

7 Development/Other

Package	Description
autoconf 2.13	A GNU tool for automatically configuring source code.
automake 1.4	A GNU tool for automatically creating Makefiles.
chrpath 0.12	Dynamic library load path (rpath) alterer
dev86 0.16.3	A real mode 80x86 assembler and linker.
expat 1.95.6	Expat is an XML parser written in C
gcc-g77 3.3.2	Fortran 77 support for gcc
gdb 6.0	A GNU source - level debugger for C, C++ and Fortran
glib-gettextize 2.2.3	Gettextize replacement
kdbg 1.2.9	A Graphical Debugger Interface
m4 1.4ppre2	The GNU macro processor.
ruby 1.8.1	Object Oriented Script Language
sablotron 0.98	XSLT processor
spec-helper 0.10.1	Tools to ease the creation of rpm packages

8 Development/Perl

Package	Description
perl-BSD-Resource 1.22	BSD-Resource module for perl
perl-Data-ShowTable 3.3	Perl 5 module to print arrays of data
perl-Devel-Symdump 2.03	Devel-Symdump module for perl
perl-MDK-Common-devel 1.1.11	Various verifying scripts
swig 1.3.21	Simplified Wrapper and Interface Generator (SWIG)

9 Editors

Package	Description
cooledit 3.17.7	Full featured multiple window programmer's text editor
ctags 5.5.2	Generates an index (or "tag") file for objects found in source files

Package	Description
xemacs 21.4.15	An X Window System based version of GNU Emacs

10 File tools

Package	Description
xdelta 2.0	A binary delta generator

11 Graphical desktop/KDE

Package	Description
kdesdk 3.2	K Desktop Environment - Software Development Kit
kdesdk-cervisia 3.2	CVS client part

12 System/Configuration/Packaging

Package	Description
rpm-build 4.2.2	Scripts and executable programs used to build packages

13 System/Servers

Package	Description
ADVX-build 9.2	ADVX-build contains tools and macros to build ADVX
apache2-mod_perl 2.0.48_1.99_11	An embedded Perl interpreter for the apache2 Web server
apache2-mod_php 2.0.48_4.3.4	The PHP4 HTML-embedded scripting language for use with apache2
apache-mod_perl 1.3.29_1.29	Apache Web server with a built-in Perl interpreter
egroupware-developer_tools 1.0	The eGroupWare developer_tools application
mod_perl-devel 1.3.29_1.29	Apache-Mod_Perl Development Files
php-xml 4.3.4	The XML module for PHP

14 Text tools

Package	Description
patch 2.5.9	The GNU patch command, for modifying/upgrading files
recode 3.6	GNU recode

LIBRARIES AND HEADERS

15 Communications

Package	Description
libhylafax4.1.1-devel 4.1.8	Hylafax libraries
libjpilot_plugin0-devel 0.99.6	Library and header file needed for jpilot plugin development

16 Development/C

Package	Description
apache2-devel 2.0.48	Module development tools for the apache2 web server
apache2-mod_perl-devel 2.0.48_1.99_11	Files needed for building XS modules that use mod_perl
apache-devel 1.3.29	Module development tools for Apache 1.3.
awesfx-devel 0.5.0	Development files for awesfx.
bind-devel 9.2.3	Include files and libraries needed for bind DNS development.
bridge-utils-devel 0.9.6	Libraries for the linux ethernet bridge programs.
cdrecord-devel 2.01	The libschily SCSI user level transport library
db1-devel 1.85	Development libs/header files for Berkeley DB (version 1) library.
db2-devel 2.4.14	Development libs/header files for Berkeley DB (version 2) library.
dietlibc-devel 0.24	Development files for dietlibc
epiphany-devel 1.0.7	Header files for developing with Epiphany
faces-devel 1.6.1	The Faces program's library and header files.
freetype-devel 1.3.1	Header files and static library for development with FreeType.
FreeWnn-devel 1.1.1	Development library and header file for Wnn
glibc-devel 2.3.3	Header and object files for development using standard C libraries
glibc-static-devel 2.3.3	Static libraries for GNU C library
Glide_V2-devel 2.53	Development libraries for Glide 2.x

Package	Description
Glide_V3-devel 2.60.15	Development libraries for Glide 2.x
Glide_V3-DRI-devel cvs	Development headers for Glide 3.x
Glide_V5-devel cvs	Development headers for Glide 3.x
gocr-devel 0.38	Development tools for gocr
gsm-devel 1.0.10	Development libraries for a GSM speech compressor.
gststreamer-plugins-devel 0.6.4	GStreamer Plugin Library Headers.
hfsutils-devel 3.2.6	C library for reading and writing Macintosh HFS volumes
htdig-devel 3.2.0	Libraries needed to develop for htdig
imap-devel 2002d	Libraries, includes, etc to develop IMAP applications
irssi-devel 0.8.9	Static libraries for the development of irssi applications.
isapnptools-devel 1.26	Devel librairies for configuring ISA Plug and Play (PnP) devices
ladspa-devel 1.12	Linux Audio Developer's Simple Plugin API
ldetect-devel 0.5.1	Development package for ldetect
lesstif-devel 0.93.94	Static library and header files for Lesstif/Motif development
liba52dec0-devel 0.7.4	Development files for a52dec
libaa1-devel 1.4.0	Header files and libraries for developing apps which will use aalib.
libaa1-static-devel 1.4.0	Static library for developing apps which will use aalib.
libacl1-devel 2.2.23	Access control list static libraries and headers.
libadns1-devel 1.0	Advanced, easy to use, asynchronous capable DNS client library
libalsa2-devel 1.0.2	Development files for Advanced Linux Sound Architecture (ALSA)
libalsa2-static-devel 1.0.2	Static libraries for Advanced Linux Sound Architecture (ALSA)
libanthy0-devel 4925	Headers of anthy for development.
libao2-devel 0.8.4	Headers for developing programs that will use libao
libapm1-devel 3.1.0	Development library for libapm
libast1-devel 0.5	LibAST is the Library of Assorted Spiffy Things - development environment
libatk1.0_0-devel 1.4.1	Stuff for developing with atk.

Package	Description
libattr1-devel 2.4.14	Extended attribute static libraries and headers.
libaudiofile0-devel 0.2.5	Includes and other files to develop audiofile applications
libavc1394_0-devel 0.4.1	FireWire interface
libbeecrypt6-devel 3.1.0	Files needed for developing applications with beecrypt.
libbmpeg1-devel 1.3.1	Mpeg library development package
libbonobo2-devel 1.0.22	Libraries and include files for the Bonobo document model
libbzip2_1-devel 1.0.2	Header files for developing apps which will use bzip2.
libcdaudio1-devel 0.99.9	Headers for developing programs that will use libcdaudio1
libcdda0-devel 1.11a9.8	Development libraries for cdparanoia
libcddb0-devel 0.9.4	Devel files from libcddb
libcddb0-static-devel 0.9.4	Static Library for developing applications with libcddb.
libcdio0-devel 0.65	Devel files from libcdio
libcdio0-static-devel 0.65	Static Library for developing applications with libcdio.
libcdk-devel 4.9.11	Headers to develop cdk-based applications
libclamav1-devel 0.67	Development library and header files for the clamav library
libclamav1-static-devel 0.67	Static development library for the clamav library
libcrack2-devel 2.7	Cracklib link library & header file
libcroco1-devel 0.4.0	Libraries and include files for developing with libsvg.
libcups2-devel 1.1.20	Common Unix Printing System - Development environment "libcups"
libCw1-devel 3.17.7	Development files for cooledit
libdbus-1_0-devel 0.20	Libraries and headers for D-BUS
libdevmapper1.00-devel 1.00.07	Device mapper development library
libdiffie1-devel 0.10.49	Static version of the diffie library
libdirectfb0.9_20-devel 0.9.20	Header files for compiling DirectFB applications
libdm0-devel 2.1.0	Data Management API static libraries and headers.
libdv2-devel 0.101	Devel files from libdv
libdv2-static-devel 0.101	Static library of libdv
libdvnav0-devel 0.1.9	DVD Navigation library headers and support files

Package	Description
libdvdread3-devel 0.9.4	Libdvdread library headers
libecpg3-devel 7.4.1	Development library to libecpg.
libeel2_2-devel 2.4.2	Libraries and include files for developing with Eel.
libefs1-devel 1.0.22	Embedded File System library
libepplet0-devel 0.7	Development libraries for Enlightenment applets
libesmtplib5-devel 1.0.2	Headers and development libraries for libESMTP
libesound0-devel 0.2.32	Includes and more to develop Esound applications
libexpat0-devel 1.95.6	Development environment for the expat XML parser
libext2fs2-devel 1.34	The libraries for Ext2fs
libfam0-devel 2.6.10	Libraries and headers for FAM
libffi2-devel 3.3.2	Development headers and static library for FFI
libffmpeg0-devel 0.4.8	Header files and static library for the ffmpeg codec library
libflac4-devel 1.1.0	Libraries and headers needed for building apps using FLAC
libfltk1.1-devel 1.1.4	Fast Light Too Kit (FLTK) - development environment
libfnlib0-devel 0.5	Headers, static libraries and documentation for Fnlib.
libfontconfig1-devel 2.2.1	Font configuration and customization library
libforms1-devel 1.0	Development files for the xforms toolkit.
libforms1-static-devel 1.0	The static development files for the xforms toolkit.
libfreetype6-devel 2.1.7	Header files and static library for development with FreeType2
libfreetype6-static-devel 2.1.7	Static libraries for programs which will use the FreeType2 library
libfribidi0-devel 0.10.4	Static libraries and headers for fribidi library
libgal2.0_6-devel 1.99.11	Libraries and include files for gal
libgal23-devel 0.24	Libraries and include files for gal
libgd2-devel 2.0.15	The development libraries and header files for gd.
libgd2-static-devel 2.0.15	Static GD library
libgimp1.2_1-devel 1.2.5	GIMP plugin and extension development kit
libgimpprint1-devel 4.2.7	Headers and links for compiling against libgimpprint
libgle3-devel 3.1.0	Devel files for GLE.
libglib1.2-devel 1.2.10	GIMP Toolkit and GIMP Drawing Kit support library

Package	Description
libglib2.0_0-devel 2.2.3	Static libraries and header files of glib2.0
libgmp3-devel 4.1.2	Development tools for the GNU MP arbitrary precision librar
libgmpmp3-devel 4.1.2	Development tools for Berkley MP compatibility library for GMP
libgnet-1.1_0-devel 1.1.9	Header files for the Gnet library
libgnet-2.0_0-devel 2.0.4	Header files for the Gnet library
libgnomeprint15-devel 0.37	Libraries and include files for developing GNOME applications.
libgnucash0-devel 1.8.8	Libraries needed to develop for gnucash
libgpm1-devel 1.20.1	Libraries and header files for developing mouse driven programs.
libgsf-1_1-devel 1.8.2	Support files necessary to compile applications with libgsf.
libgsl0-devel 1.4	Development files for Scientific Library
libgstreamer0.6-devel 0.6.4	Libraries and include files for GStreamer streaming-media framework
libgtkspell0-devel 2.0.3	Spell-checking addon for GTK's TextView widget
libguile12-devel 1.6.4	Development headers and static library for libguile
libguppi16-devel 0.40.3	Development files for Guppi
libg-wrap1-devel 1.3.4	Include files and libraries needed for g-wrap development.
libhdf5_0-devel 1.4.5	Static libraries and header files for hdf5 development
libhermes1-devel 1.3.3	Headers for developing programs that will use hermes
libhpojip0-devel 0.91	Headers and links to compile against the "libhpojip0" ("hpoj") library
libhz0-devel 0.3.13	Headers and development files of zh-autoconvert
libid3tag0-devel 0.15.0b	Development tools for programs which will use the libid3tag library.
libIDL2_0-devel 0.8.3	Header files and libraries needed for libIDL development
libidnkit1-devel 1.0	Header files for the libidnkit1 library
libieee1284_3-devel 0.2.8	libieee1284 is a cross-platform library for parallel port access
libieee1284_3-static-devel 0.2.8	Static library for libieee1284
libijs0-devel 0.34	Headers and links for compiling against
libimlib2_1-devel 1.0.6	Imlib2 headers, static libraries and documentation

Package	Description
libipmitool1-devel 1.5.9	Development package with static libs and headers
libirman-devel 0.4.2	Header files and static library for development with libirman
libisd4k-utils2-devel 3.2p3	Includes and other files to develop isdn4k-utils applications.
libiw26-devel 26	Wireless_tools development library
libjack0-devel 0.94.0	Header files for Jack
libjbig-devel 1.5	Header files and static library for development with JBIG
libjpeg62-devel 6b	Development tools for programs which will use the libjpeg library
libjpeg62-static-devel 6b	Static libraries for programs which will use the libjpeg library
liblcms1-devel 1.10	Header files and static library for development with LCMS
libldap2-devel 2.1.25	OpenLDAP development libraries and header files.
libldap2-devel-static 2.1.25	OpenLDAP development static libraries
liblinux-atm1-devel 2.4.1	Development files for linux - atm
liblm_sensors3-devel 2.8.4	Development libraries and header files for lm_sensors
liblm_sensors3-static-devel 2.8.4	Static libraries for lm_sensors
libltdl3-devel 1.4.3	Development files for libtool
liblzo1-devel 1.08	Headers files of liblzo library
libmad0-devel 0.15.0b	Development tools for programs which will use the mad library.
libmagic1-devel 4.07	Development files to build applications that handle magic files.
libmagic1-static-devel 4.07	Static library to build applications that handle magic files.
libMagick5.5.7-devel 5.5.7.15	Static libraries and header files for ImageMagick app development
libmal0-devel 0.31	Development tools for programs which will use the libmal library.
libMesaGLU1-devel 5.0.2	Development files for GLU libs
libMesaglut3-devel 5.0.2	Development files for glut libs
libmikmod2-devel 3.1.10	Header files and libraries for developing apps which will use libmikmod.
libmirrordirz1-devel 0.10.49	Static version of the mirrordirz library
libmjpegtools1.6-devel 1.6.1.93	Headers for developing programs that will use mjpegtools
libmm1-devel 1.3.0	Development files for mm.
libmm1-static-devel 1.3.0	Development files for mm

Package	Description
libmng1-devel 1.0.5	Header files for libmng
libmng1-static-devel 1.0.5	Static libraries for libmng
libmpeg2dec0-devel 0.4.0	MPEG-2 Decoder development files
libmpeg2dec0-static-devel 0.4.0	MPEG-2 Decoder static libraries
libnas2-devel 1.6b	Development headers and libraries for writing programs using NAS
libnas2-static-devel 1.6b	NAS static library
libncpfs2.3-devel 2.2.3	Development package with static libs and headers
libncurses5-devel 5.3	The development files for applications which use ncurses
libncursesw5-devel 5.3	The development files for applications which use ncurses
libnetpbm9-devel 9.24	Development tools for programs which will use the netpbm libraries
libnetpbm9-static-devel 9.24	Static libraries for the netpbm libraries
libnet-snmp5-devel 5.1	The development environment for the NET-SNMP project.
libnet-snmp5-static-devel 5.1	The static development libraries for the NET
libnewt0.51-devel 0.51.6	Newt windowing toolkit development files.
libntfs5-devel 1.8.4	Header files and libraries for developing apps which will use libntfs
libofx0-devel 0.6.6	Libraries needed to develop for libofx
libogg0-devel 1.1	Headers for developing programs that will use libogg
liboggflac1-devel 1.1.0	Developer files needed for building apps using OggFLAC
libopenh323_1-devel 1.12.2	OpenH323 development files
libOpenIPMI1-devel 1.3.9	Development package with static libs and headers
libopenjade0-devel 1.3.2	Development files for openjade
libopenslp1-devel 1.0.11	Development tools for programs which will use the openslp library
libOpenSP3-devel 1.5	Libraries and include files for developing OpenSP applications.
libpaper1-devel 1.1.8	Library for handling paper characteristics (development files)
libpaper1-static-devel 1.1.8	Library for handling paper characteristics (development files)
libparted1.6-devel 1.6.6	Files required to compile software that uses libparted

Package	Description
libpcap0-devel 0.8.1	Static library and header files for the pcap library
libpcre0-devel 4.5	Headers and static lib for pcre development
libpgtcl2-devel 7.4.1	Tcl/Tk development library and front-end for PostgreSQL.
libpisock8-devel 0.11.8	PalmPilot development header files
libplanner-1_0-devel 0.11	The files needed for Planner application development.
libpng3-devel 1.2.5	Development tools for programs to manipulate PNG image format files
libpng3-static-devel 1.2.5	Development static libraries
libpostproc0-devel 1.0	C headers for linking against the postprocessing library
libppd1-devel 0.10	Headers and links to compile against the "libppd1" library
libpq3-devel 7.4.1	Development library for libpq2
libprelude0-devel 0.8.5	Libraries, includes, etc. to develop Prelude IDS sensors
libPropList0-devel 0.10.1	Lib for configuration or preference files compatible GNUstep/OPENSTEP
libptal0-devel 0.91	Headers and links to compile against the "libptal0" ("hpoj") library
libpth14 1.4.1	GNU Pth - GNU Portable Threads.
libpth14-devel 1.4.1	GNU Pth - GNU Portable Threads (Headers and Static Libs).
libpth20-devel 2.0.0	GNU Pth - GNU Portable Threads (Headers and Static Libs)
libpwdb0-devel 0.61.2	The pwdb include files and link library
libpwdb0-static-devel 0.61.2	The pwdb static library
libpwlib1-devel 1.5.2	Portable Windows Library development files
libquicktime0-devel 0.9.2	Header files and development documentation for libquicktime
libquicktime0-static-devel 0.9.2	Static libquicktime libraries
libraw1394_5-devel 0.9.0	Development and include files for libraw1394
libraw1394_5-static-devel 0.9.0	Development components for libraw1394
libreadline4-devel 4.3	Files for developing programs that use the readline library.
librsvg2_2-devel 2.4.0	Libraries and include files for developing with librsvg.
libsamplerate0-devel 0.0.15	Audio Sample Rate Converter development files
libsane1-devel 1.0.13	SANE - local and remote scanner access.

Package	Description
libsasl2-devel 2.1.15	Libraries for SASL a the Simple Authentication and Security Layer.
libscrollkeeper0-devel 0.3.14	Includes and more to develop scrollkeeper applications
libSDL1.2-devel 1.2.7	Headers for developing programs that will use SDL12
libSDL_gfx10-devel 2.0.10	Header files and more to develop SDL_gfx applications
libSDL_gfx10-static-devel 2.0.10	Static SDL_gfx libraries
libSDL_image1.2-devel 1.2.3	Headers for developing programs that will use SDL_image
libSDL_mixer1.2-devel 1.2.5	Headers for developing programs that will use SDL_mixer
libSDL_net1.2-devel 1.2.5	Headers for developing programs that will use SDL_net
libSDL_ttf2.0-devel 2.0.6	Headers for developing programs that will use SDL_ttf
libslang1-devel 1.4.9	The static library and header files for development using S-Lang.
libsmbclient0-devel 3.0.6	SMB Client Library Development files
libsmpeg0.4-devel 0.4.4	Headers for developing programs that will use smpeg
libsndfile1-devel 1.0.5	Libraries, includes, etc to develop libsndfile applications
libsndfile1-static-devel 1.0.5	Static Library for developing libsndfile applications.
libsnmp0-devel 4.2.3	The development environment for the NET SNMP project.
libspeex1-devel 1.1.4	Speex development files
libspeex1-static-devel 1.1.4	Speex static library
libsqlite0-devel 2.8.6	Development library and header files for the sqlite library
libsqlite0-static-devel 2.8.6	Static development library for the sqlite library
libstartup-notification-1_0-devel 0.5	Library used to monitor application startup
libswfdec0-devel 0.2.2	Swfdec development files and static libraries.
libsysfs0-devel 0.4.0	Headers for developing programs that will use sysfsutils
libsysfs0-static-devel 0.4.0	Static library for developing programs that will use sysfsutils
libtabe2-devel 0.2.6	Header files and libraries for developing apps which will use libtabe
libtaglib0-devel 1.0	Headers and static lib for taglib development
libtermcap2-devel 2.0.8	Development tools for programs which will access the termcap database

Package	Description
libtiff3-devel 3.5.7	Development tools for programs which will use the libtiff library
libtiff3-static-devel 3.5.7	Static libraries for programs which will use the libtiff library
libtpctl2-devel 4.4	Development package with static libs and headers.
libuim0-devel 0.2.8	Headers of uim for development.
libungif4-devel 4.1.0	Development tools for programs which will use the libungif library.
libungif4-static-devel 4.1.0	Static libraries for programs which will use the libungif library.
libusb0.1_4-devel 0.1.7	Libusb is a library which allows userspace access to USB devices
libusb0.1_4-static-devel 0.1.7	Static libraries for libusb
libuser1-devel 0.51.7	Files needed for developing applications which use libuser.
libutempter0-devel 0.5.2	Devel files for utempter
libvcd0-devel 0.7.20	Devel files from vcdimager
libvcd0-static-devel 0.7.20	Static Library for developing applications with vcdimager.
libvorbis0-devel 1.0.1	Headers for developing programs that will use libvorbis
libvte4-devel 0.11.10	Files needed for developing applications which use vte.
libwine1-devel 20040213	Static libraries and headers for wine
libwmf0.2_7-devel 0.2.8	A library to convert wmf files.
libwraster2-devel 0.80.2	Libwraster Development library
libwraster2-static-devel 0.80.2	Libwraster Static library
libwv-1.0_0-devel 1.0.0	MSWord 6/7/8/9 binary file format > HTML converter (development)
libwv2_1-devel 0.2.1	Word97 exporter library devel
libwvstreams3.74-devel 3.74.0	Development files for WvStreams.
libXaw3d7-devel 1.5	Header files and static libraries for development using Xaw3d
libxfree86-devel 4.3	Headers and programming man pages.
libxfs1-devel 2.6.3	XFS filesystemspecific static libraries and headers.
libxine1-devel 1	Devel files for xine
libxml1-devel 1.8.17	Libraries, includes and other files to develop libxml applications.
libxml2-devel 2.6.6	Libraries, includes, etc. to develop XML and HTML applications

Package	Description
libxmlrpc0-devel 0.51	Libraries, includes, etc. to develop XML and HTML applications
libxmms1-devel 1.2.9	Development package with static libs and headers
libxpm4-devel 3.4k	Tools for developing apps which will use the XPM pixmap library
libxslt1-devel 1.1.2	Libraries, includes, etc. to develop XML and HTML applications
libzvb10-devel 0.2.5	Header files for developing apps which will use libzvb1
licq-devel 1.2.6	Development files for Licq
lsb-build-base-devel 2.0.3	LSB Build environment base package
OpenDX-devel 4.3.2	Development libraries for OpenDX
pciutils-devel 2.1.11	Linux PCI development library
perl-Tk-devel 800.024	Tk modules for Perl (development package)
php432-devel 4.3.4	Development package for PHP4
popt-devel 1.8.2	A C library for parsing command line parameters
prelude-lml-devel 0.8.1	Libraries, includes, etc. to develop Prelude Log Analyzer Sensor
prelude-manager-devel 0.8.7	Libraries, includes, etc. to develop Prelude IDS Manager plugins
prelude-nids-devel 0.8.1	Libraries, includes, etc. to develop Prelude NIDS
procps-devel 3.1.15	An X based system message monitoring utility
publib-devel 0.31	C function library
pump-devel 0.8.19	Header files and static libs for the development of pump applications.
rpm-devel 4.2.2	Development files for applications which will manipulate RPM packages
sfio-devel 1999	Libraries, includes and other files for Safe/Fast I/O Library
sox-devel 12.17.4	The SoX sound file format converter libraries.
swig-devel 1.3.21	Header files and libraries for developing apps which will use swig
t1lib1-devel 1.3.1	Header files for Type 1 font rasterizer
t1lib1-static-devel 1.3.1	Static libraries for Type 1 font rasterizer
tcp_wrappers-devel 7.6	A security library which acts as a wrapper for TCP daemons.
tetex-devel 2.0.2	Development libraries (kpathsea) for teTeX
vflib2-devel 2.25.1	Header files and static library for VFLib v2.24.0.

Package	Description
WindowMaker-devel 0.80.2	Static libraries and header files
WindowMaker-static-devel 0.80.2	Static libraries
xdelta-devel 2.0	Static libraries and header files for development with XDelta
xemacs-devel 21.4.15	Header files for Xemacs
zlib1-devel 1.2.1	Header files and libraries for developing apps which will use zlib

17 Development/C++

Package	Description
festival-devel 1.4.3	Static libraries and headers for festival text to speech
kino-devel 0.7.0	Header files for kino plugin development
libbluez1-devel 2.5	Headers for developing programs that will use bluez
libbluez-sdp2-devel 1.5	Headers for developing programs that will use bluez-sdp
libclanlib2-devel 0.6.5	Headers for developing programs that will use clanlib0.6
libclanlib2-static-devel 0.6.5	Static libraries for clanlib0.6
libdbus-qt-1_0 0.20	Qt-based library for using D-BUS
libebml-devel 0.6.4	Extensible Binary Meta Language Library headers and static library
libflac++2-devel 1.1.0	Libraries and headers needed for building apps using FLAC++
libgmpxx3-devel 4.1.2	C++ Development tools for the GMP
libid3_3.8_3-devel 3.8.3	Headers for developing programs that will use id3lib
libid3_3.8_3-static-devel 3.8.3	Id3lib static libraries
libkbear2-devel 2.1.1	Development tools for kbear
libmatroska-devel 0.6.3	Matroska Audio/Video file format headers and static library
libneon0.24-devel 0.24.7	Headers for developing programs that will use libneon
libneon0.24-static-devel 0.24.7	Static libneon0.24 library
libnspr4-devel 1.6	Netscape Portable Runtime library - development files
libnss3-devel 1.6	Network Security Services (NSS) - development files
liboggflac++0-devel 1.1.0	Libraries and headers needed for building apps using OggFLAC++

Package	Description
libopenhbc14-devel 0.9.14	Libraries needed to develop for openhbc1
libscribus0-devel 1.0.1	Development tools for programs which will use the libscribus0 library.
libsidplay1-devel 1.36.57	Libraries and include files for developing libsidplay applications.
libsigc++1.0_0-devel 1.0.4	Headers for developing programs that will use libsigc++1.0
libsigc++1.2_5-devel 1.2.5	Development tools for the Typesafe Signal Framework for C++
libspeech_tools1-static-devel 1.2.3	Static libraries and headers for festival text to speech
libstdc++2.10-devel 2.96	Header files and libraries for C++ development
libstdc++5-devel 3.3.2	Header files and libraries for C++ development
libstdc++5-static-devel 3.3.2	Static libraries for C++ development
libstdc++6-devel 3.4.0	Header files and libraries for C++ development
libstdc++6-static-devel 3.4.0	Static libraries for C++ development

18 Development/Databases

Package	Description
libdb3.3-devel 3.3.11	Development libraries/header files for the Berkeley DB library
libdb4.1-devel 4.1.25	Development libraries/header files for the Berkeley DB library
libdb4.1-static-devel 4.1.25	Development static libraries files for the Berkeley DB library
libgda0-devel 0.2.96	GNU Data Access Development
libgda2.0_1-devel 1.0.3	GNU Data Access Development
libgdbm2-devel 1.8.0	Development libraries and header files for the gdbm library
libgnome-db0-devel 0.2.96	GNOME DB Development
libgnome-db2.0_3-devel 1.0.3	GNOME DB Development
perl-Mysql 1.22_19	DBD Mysql perl Emulation Layer
postgresql-devel 7.4.1	PostgreSQL development header files and libraries

19 Development/GNOME and GTK+

Package	Description
evolution-devel 1.4.6	Libraries and include files for developing Evolution components
gnopernicus-devel 0.7.1	Static libraries, include files for gnopernicus
libart_lgpl2-devel 2.3.16	Libart is a library for high-performance 2D graphics
libat-spi0-devel 1.3.9	Static libraries, include files for at-spi
libbonobo2_0-devel 2.4.3	Static libraries, include files and sample code for Bonobo 2
libbonoboui2_0-devel 2.4.3	Static libraries, include files and sample code for Bonobo 2
libcapplet1-devel 1.5.11	Development files for capplet library.
libcddb-slave2_0-devel 2.4.1.1	Static libraries, include files for GNOME media
libgail17-devel 1.4.1	Static libraries, include files for GAIL
libgail-gnome-devel 1.0.2	Static libraries, include files for libgail-gnome
libgaim-remote0-devel 0.75	Development files for gaim-remote
libGConf2_4-devel 2.4.0.1	Development libraries and headers for GConf
libgconfmm2.0_1-devel 2.0.1	Headers and development files of GConf 2 C++ wrapper
libgdkcardimage0-devel 2.4.2	GNOME games development libraries
libgdk_pixbuf2.0_0-devel 2.2.4	Development files for image handling library for GTK+
libgdk-pixbuf2-devel 0.22.0	Development tools for GdkPixBuf applications
libghttp1-devel 1.0.9	GNOME http client development
libglade0-devel 0.17	Libraries, includes, etc to develop libglade applications
libglade2.0_0-devel 2.0.1	Libraries, includes, etc to develop libglade applications
libglademm2.0_1-devel 2.1.2	Development related files of libglademm
libglibwww1-devel 0.2	Development libraries, header files and utilities for glibwww
libgnome2_0-devel 2.4.0	Static libraries, include files for GNOME
libgnome32-devel 1.4.2	Libraries and headers for GNOME application development
libgnomecanvas2_0-devel 2.4.0	Development libraries and include files for GnomeCanvas widget
libgnomecanvasmm2.0_1-devel 2.0.1	Headers and development files of GNOME 2 canvas library
libgnome-desktop-2_2-devel 2.4.1.1	Static libraries, include files for gnome-desktop

Package	Description
libgnome-mag1-devel 0.10.4	Static libraries, include files for gnome-mag
libgnomemm-1.2_9-devel 1.2.4	Headers for developing programs that will use Gnome
libgnomemm2.0_1-devel 2.0.1	Development files for libgnome C++ wrapper
libgnome-pilot2-devel 2.0.10	GNOME pilot libraries, includes, etc
libgnomeprint2-2_0-devel 2.4.2	Static libraries, include files for GNOME print
libgnomeprintui2-2_0-devel 2.4.2	Static libraries, include files for GNOME print
libgnomespeech6-devel 0.2.8	Static libraries, include files for gnome_speech
libgnomeui2_0-devel 2.4.0.1	Static libraries, include files for GNOME
libgnomeuimm2.0_1-devel 2.0.0	Development files for libgnomeui C++ wrapper
libgnome-vfs0-devel 1.0.5	Libraries and include files for developing GNOME VFS applications.
libgnome-vfs2_0-devel 2.4.2	Libraries and include files for gnome-vfs
libgnome-window-settings1-devel 2.4.0	Static libraries, include files for GNOME control center
libgtkglarea2.0-devel 1.99.0	GtkGLArea is an OpenGL widget for GTK+ - includes and static libs
libgtkglarea5-devel 1.2.3	GtkGLArea is an OpenGL widget for GTK+ - includes and static libs
libgtkhtml1.1_3-devel 1.1.10	Development libraries, header files and utilities for GtkHTML
libgtkhtml2_0-devel 2.4.1	Static libraries, include files for GtkHTML2
libgtkhtml-3.0_4-devel 3.0.10	Development libraries, header files and utilities for GtkHTML
libgtkmm1.2-devel 1.2.10	Headers for developing programs that will use gtkmm
libgtkmm1.2-static-devel 1.2.10	Static libraries for gtkmm
libgtkmm2.0_1-devel 2.2.9	Headers and development files of gtkmm
libgtkmm2.0_1-static-devel 2.2.9	Static libraries of gtkmm
libgtk+1.2-devel 1.2.10	Development tools for GTK+ (GIMP ToolKit) applications.
libgtk+2.0_0-devel 2.2.4	Development files for GTK+ (GIMP ToolKit) applications
libgtk+-linuxfb-2.0_0-devel 2.2.4	Development files for frame-buffer backend of GTK+
libgtksourceview-1.0_0-devel 0.7.0	Libraries and include files for GtkSourceView
libgtop2.0_0-devel 2.0.8	Development files for libgtop

Package	Description
libgucharmap3-devel 1.2.0	Headers for developing programs that will use gucharmap
libimlib1-devel 1.9.14	Includes and other files to develop imlib applications.
liblinc1-devel 1.0.3	Static libraries and header files for linc
libmetacity-private0-devel 2.6.5	Libraries and include files with Metacity
libnautilus2-devel 2.4.2	Libraries and include files for developing nautilus components
libORBit0-devel 0.5.17	Development libraries, header files and utilities for ORBit
libORBit2_0-devel 2.8.3	Development libraries, header files and utilities for ORBit.
libpanel-applet-2_0-devel 2.4.2	Static libraries, include files for GNOME panel
libpango1.0_0-devel 1.2.5	System for layout and rendering of internationalized text
libsoup-2.0_0-devel 1.99.28	Development libraries, header files and utilities for soup
libwnck-1_4-devel 2.4.0.1	Static libraries, include files for libwnck
pygnome 1.4.4	The sources for the PyGTK and PyGNOME Python extension modules
pygnome-devel 1.4.4	Files that are useful for wrapping GNOME addon libraries
pygtk2.0-devel 2.0.0	Files needed to build wrappers for GTK+ addon libraries
pygtk-devel 0.6.11	Files needed to build wrappers for GTK+ addon libraries
pyorbit 2.0.0	Python bindings for ORBit2
pyorbit-devel 2.0.0	Files needed to build wrappers for ORBit2 addon libraries

20 Development/Java

Package	Description
libgcj4-devel 3.3.2	Header files and libraries for Java development
libgcj4-static-devel 3.3.2	Static libraries for Java development

21 Development/KDE and Qt

Package	Description
libarts1-devel 1.2	Development files for arts
libkdeaddons1-devel 3.2	Devel librairies for kdeaddons
libkdebase4-devel 3.2	Devel stuff for kdebase
libkdebase4-kate-devel 3.2	Development file for Kate
libkdebase4-nsplugins-devel 3.2	Librairie for Netscape Plugins for kdebase
libkdec1-devel 3.2	Header files for libkdec
libkdecore4-devel 3.2	Header files and documentation for compiling KDE applications.
libkdeedu1-devel 3.2	Header files for kdeedu
libkdegames1-devel 3.2	Headers files for kdegames
libkdegraphics0-common-devel 3.2	Include files for kdegraphics
libkdegraphics0-kooka-devel 3.2	Devel files for Kooka
libkdegraphics0-kpovmodeler-devel 3.2	Devel for kpovmodeler package
libkdegraphics0-ksvg-devel 3.2	Devel files for Ksvg
libkdegraphics0-kview-devel 3.2	Devel file for Kview package
libkdemultimedia1-common-devel 3.2	Header files for kdemultimedia
libkdemultimedia1-kscd-devel 3.2	Devel files for kscd program
libkdemultimedia1-noatun-devel 3.2	Devel files for Noatun program
libkdenetwork2-common-devel 3.2	Header files for kdenetwork
libkdepim2-common-devel 3.2	Devel stuff for kdepim
libkdepim2-kaddressbook-devel 3.2	Devel file for Kaddressbook
libkdepim2-kmail-devel 3.2	Devel files for kmail
libkdepim2-knode-devel 3.2	Devel files for knode
libkdepim2-kontact-devel 3.2	Devel files for kontact program
libkdepim2-korganizer-devel 3.2	Devel files for korganizer program
libkdepim2-kpilot-devel 3.2	Devel files for kpilot program
libkdesdk1-cervisia-devel 3.2	Devel files for CVS client part

Package	Description
libkdesdk1-devel 3.2	Header files for kdesdk
libkdesdk1-kbabel-devel 3.2	Devel files for KBabel
libkdetoys1-devel 3.2	Headers files for kdetoys
libkdeutils1-common-devel 3.2	Header files for kdeutils
libkdeutils1-ksim-devel 3.2	Header files for ksim
libkdevelop3-devel 3.0.0	Development files for kdevelop
libkjsembed1 3.2	KJS Javascript interpreter
libkjsembed1-devel 3.2	Header files for KJS Javascript interpreter
libkoffice2-devel 1.3	Header files for developing koffice applications
libqt3-devel 3.2.3	Qt3 - Documentation and files needed to build Qt3 based applications
libqtc1 3.2	Qt bindings for C
libqtc1-devel 3.2	Header files for libqtc
libqtsharp0 3.2	Qt bindings for C#
libqtsharp0-devel 3.2	Header files for libqtc#
libquanta0-devel 3.2	Development library for quanta
libquanta0-kfilereplace-devel 3.2	Librairie for Kfilereplace
libquanta0-kommander-devel 3.2	Header for kommander

22 Development/Kernel

Package	Description
kernel-source 2.4.25	The source code for the Linux kernel
kernel-source 2.6.3	The source code for the Linux kernel
kernel-source-stripped 2.6.3	The source code of the Linux kernel stripped for post build

23 Development/Libraries

Package	Description
nptl-devel 2.3.3	Header files and static libraries for development using NPTL library

24 Development/Other

Package	Description
a2ps-devel 4.13b	Include files for a2ps
a2ps-static-devel 4.13b	Static libraries for a2ps
cyrus-imapd-devel 2.1.16	Cyrus IMAPd development files
dev86-devel 0.16.3	A development files for dev86
dhcp-devel 3.0	Development headers and libraries for the dhcpctl API
Eterm-devel 0.9.2	Devel files for Eterm
gkrellm-devel 2.1.25	Include files for gkrellm
libamanda0-devel 2.4.4	Libraries and documentation of the AMANDA tape backup system.
libaspell15-devel 0.50.4.1	Development files for aspell
libblt2-devel 2.4z	Headers of BLT
libcim3-devel 3.36	Headers for developing programs that will use cim
libconsole0-devel 0.2.3	Include and .so files for console tools
libconsole0-static-devel 0.2.3	Static libraries for console tools
libdxr3_0-devel 0.13.0	Development Libraries & includes for DXR3 device
libelfutils1-devel 0.89	Development libraries to handle compiled objects
libelfutils1-static-devel 0.89	Static libraries for development with libelfutils
libggi2-devel 2.0.4	Headers for developing programs that will use libggi
libggi2-static-devel 2.0.4	Static Library for developing programs that will use libggi
libgii0-devel 0.8.4	Headers for developing programs that will use libgii
libgii0-static-devel 0.8.4	Static libraries for developing programs that will use libgii
libheartbeat0-devel 1.2.0	Development files from heartbeat
libheartbeat-pils0-devel 1.2.0	Provides a general plugin and interface loading library
libheartbeat-stonith0-devel 1.2.0	Development files from heartbeat
libhfsplusutils0-devel 1.0.4	User-space HFS+ utilities development files
libjs1-devel 1.5	The header files for libjs1
libk3b1-devel 0.11.1	Libraries for k3b

Package	Description
libkrb51-devel 1.3	Development files needed for compiling Kerberos 5 programs.
liblirc0-devel 0.6.6	Header and library files for LIRC development
liblwp2-devel 1.9	LWP thread library development files
libmysql12-devel 4.0.18	MySQL - Development header files and libraries
libopenssl0.9.7-devel 0.9.7c	Secure Sockets Layer communications static libs & headers & utils
libopenssl0.9.7-static-devel 0.9.7c	Secure Sockets Layer communications static libs & headers & utils
libpam0-devel 0.77	Development headers and libraries for pam
libpcsc-lite0-devel 1.1.2	Muscle PCSC Framework for Linux development files
libpiave0-devel 0.2.3	Libraries from piave
librrdtool0-devel 1.0.46	RRDtool - round robin database static libraries and headers
libtclink3-devel 3.4	Headers for developping programs with TCLink
libunicode0-devel 0.4.gnome	A unicode manipulation library
libunixODBC2-devel 2.2.7	Includes and static libraries for ODBC development
mozilla-devel 1.6	Mozilla development files
naat-backend-devel 0.8	Development package of the backend-end in NAAT project
naat-frontend-www-devel 0.8	Development package of the front-end in NAAT project
netatalk-devel 1.6.4	Appletalk and Appleshare/IP services for Linux development files
p2c-devel 1.22	Files for p2c Pascal to C translator development
pcsc-lite-devel 1.1.2	Muscle PCSC Framework for Linux development files
recode-devel 3.6	Header files for GNU recode
recode-static-devel 3.6	Static libraries for GNU recode
rio500-devel 0.8.1	Header files and static libraries needed for rio500 development
ruby-devel 1.8.1	Development file for the powerful language Ruby
sendmail-devel 8.12.11	Sendmail static libraries and headers file
unicon-devel 3.0.3	UNICON ImmModule devel
w3c-libwww-devel 5.4.0	Libraries and header files for programs that use libwww

25 Development/Perl

Package	Description
ldetect-ld-devel 0.1.9	Devel for ldetect-ld
perl-BSD-Resource 1.22	BSD-Resource module for perl
perl-Data-ShowTable 3.3	Perl 5 module to print arrays of data
perl-devel 5.8.3	The Perl programming language (devel)
perl-Devel-Symdump 2.03	Devel-Symdump module for perl
perl-MDK-Common-devel 1.1.11	Various verifying scripts

26 Development/Python

Package	Description
libpython2.3-devel 2.3.3	The libraries and header files needed for Python development
libwxPythonGTK2.4-devel 2.4.2.4	Development files of wxPythonGTK
python-numeric-devel 23.1	Python numerical facilities

27 Editors

Package	Description
cooledit 3.17.7	Full featured multiple window programmer's text editor
ctags 5.5.2	Generates an index (or "tag") file for objects found in source files
libCw1 3.17.7	Shared library files for cooledit
xemacs 21.4.15	An X Window System based version of GNU Emacs

28 Graphical desktop/GNOME

Package	Description
libGConf1-devel 1.0.9	Development libraries and headers for GConf
liboaf0-devel 0.6.10	Development libraries and headers for OAF

29 Graphics

Package	Description
libexif9-devel 0.5.12	Headers and links to compile against the "libexif9" library
libexif-gtk4-devel 0.3.3	Headers and links to compile against the "libexif-gtk4" library
libgphoto2-devel 2.1.4	Headers and links to compile against the "libgphoto2" library
libgphoto0 0.0.2	I/O library for GPhoto 2.x
libgphoto0-devel 0.0.2	Headers and links to compile against the "libgphoto0" library
libmnote7-devel 0.5.6	Headers and links to compile against the "libmnote7" library

30 Monitoring

Package	Description
nut-devel 1.4.2	Development for NUT Client

31 Networking/Instant messaging

Package	Description
libkdenetwork2-kopete-devel 3.2	Devel file

32 Networking/Other

Package	Description
libcurl2-devel 7.11.0	Header files and static libraries for libcurl

33 System/Libraries

Package	Description
inn-devel 2.4.1	The INN (InterNetNews) library
krbafs-devel 1.2.2	Development files for use with the krbafs package
libbinutils2-devel 2.14.90.0.7	Main library for binutils
libf2c0 3.3.2 -	Fortran 77 runtime libraries

Package	Description
libgcj4 3.3.2	GNU Java runtime libraries
libgconfmm2.0_1 2.0.1	A C++ interface for GConf2
libgd2 2.0.15	A library used to create PNG, JPEG, or WBMP images
libglademm2.0_1 2.1.2	C++ interface of glade2 library
libgmpxx3 4.1.2	C++ support for GMP
libgnomecanvasmm2.0_1 2.0.1	A C++ interface for GNOME 2 canvas library
libgnomemm2.0_1 2.0.1	A C++ wrapper for libgnome
libgnomeuimm2.0_1 2.0.0	A C++ wrapper for GNOME UI library
libgtkmm2.0_1 2.2.9	C++ interface for popular GUI library gtk+
libhdf5_0 1.4.5	HDF5 development libraries
libheartbeat0 1.2.0	Development files from heartbeat
libneon0.24 0.24.7	Header files and development documentation for libnet
libnet1.0-devel 1.0.2a	A C library for portable packet creation
libnet1.1-devel 1.1.0	A C library for portable packet creation
liboggflac++0 1.1.0	Shared C++ libraries for OggFLAC.
libpgtcl2 7.4.1	Tcl/Tk library and front-end for PostgreSQL
libpth20 2.0.0	GNU Pth - GNU Portable Threads
libsablotron0-devel 0.98	The development libraries and header files for Sablotron
libsigc++1.2_5 1.2.5	The Typesafe Signal Framework for C++
libsmbclient0-static-devel 3.0.6	SMB Client Static Library Development files
libwvstreams3.74 3.74.0	WvStreams is a network programming library written in C++.
libwxgtk2.5-devel 2.5.0	Header files and development documentation for wxGTK
libxclass0-devel 0.6.3	Xclass is a Win95-looking GUI toolkit
netcdf-devel 3.5.0	Libraries to use the Unidata network Common Data Form (netCDF)
