

Corporate Server... The Mandriva Linux Server Solution

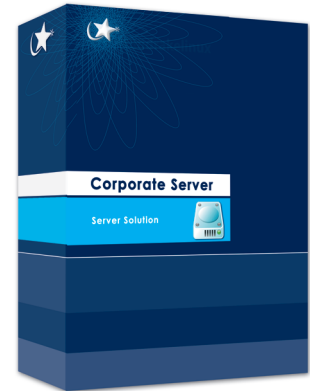

The new Corporate Server is the all-in-one server solution dedicated to businesses.

Take advantage of Linux's strengths ...

- Reliability
- Security
- Low administration costs

... and Mandriva Linux know-how!

- Ease of use
- Exclusive Mandriva Linux tools
- Professional services

Corporate Server's features

Stability

- 12-18 month upgrade cycles
- 5 year product maintenance

Performance and Innovations

- Kernel 2.6
- NPTL
- Samba 3
- Apache 2
- DrakPark: a new Mandriva Linux tool to easily update your software
- Ideal server for Corporate Desktop

Reliability and Security

- Security System Management (Draksec and Drakperm)
- Firewall
- Easy to use partitioning software supports journalized file systems EXT3, ReiserFS, XFS, and encrypted file systems

Ease of use

- Thanks to exclusive Mandriva Linux configuration assistants, deploying servers has never been so easy!

- Automated Installation Process: benefit from automatic hardware detection* and configuration

Compatibility

- X86 and X86-64 architectures
- SMP and Hyper-Threading architectures

Optimal Performances thanks to INTEL® XEON™ technology

- Support for USB2 and IEEE1394
- Serial ATA: Most controllers supported in non-Raid mode
- Heterogeneous environment support with Samba Tool for easy migration from Samba2 to Samba3 **NEW**
- Authentication on LDAP, NIS or Windows® servers

Added Value Software

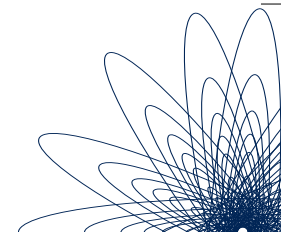

- IBM®DB2® Universal Database™ Certified
- CrossOver® Office Server Edition: the power of CrossOver® Office in a distributed thin-client environment
- NoMachine NX Server enables you to deploy centralized applications to thin clients over any network connection
- LSB 2.0 Certified **NEW**

*Most peripherals supported

Thanks to exclusive Mandriva Linux configuration assistants, deploying servers has never been so easy!
